How We Use Personal Data

My Safety Buddy NEVER (now or in the future) sells or rents Your data. My Safety Buddy uses the data We collect for four basic purposes:

Providing and Improving Our Services

We use data to provide and improve the services We offer and perform essential business operations. This includes operating the services, maintaining and improving the performance of the services, including developing new features, research, and providing customer support.

- **Product Activation.** We use data in order to activate accounts that require activation.
- **Service Improvement.** We use data to continually improve Our services, including adding new features or capabilities.

- **Analysis of Usage.** We use analytics software to allow Us to better understand the functionality of the My Safety Buddy App on Your Device and the My Safety Buddy Web Portal. This software may record information such as how often You use the My Safety Buddy App, the events that occur within the My Safety Buddy App, aggregated usage, performance data, and where the My Safety Buddy App was downloaded from.
- **Security, Safety and Dispute Resolution.** We use data to protect the security and safety of Our services and Our customers, to detect and prevent fraud, to confirm the validity of account licenses, to resolve disputes and enforce Our agreements. We may block delivery of a communication or remove content if it violates Our terms.
- **Business Operations.** We use data to develop aggregate analysis and business intelligence that enable Us to operate, protect, make informed decisions, and report on the performance of Our business.

Communications

We use data We collect to deliver and personalise Our communications with You. For example, We may contact You by email or other means to inform You when a subscription is ending, let You know when updates are available, update You or enquire about a service request, invite You to participate in a survey, or tell You that You need to take action to keep Your account active.

Additionally, You choose whether You wish to receive promotional communications by email, SMS, physical mail, and telephone from My Safety Buddy and Our affiliated or unaffiliated business partners through joint marketing agreements. You may receive promotional communications offering You products and services of Our affiliated or unaffiliated business partners that We endorse or sponsor. You can make choices about the receipt of promotional communications at any time by informing My Safety Buddy via the My Safety Buddy App, the My Safety Buddy Web Portal, or contacting Customer Support (<https://www.mysafetybuddy.com.au/contact-us/>). You will then only receive information which We are obligated to give You by law.

Marketing

My Safety Buddy may aggregate usage data and disclose such data only in aggregate and in a non-personally identifiable manner to third parties for marketing and promotional purposes (e.g., how many Users triggered an alarm on a particular day). Aggregated information does not identify You individually.

Non-Personal User Content

We may use Your submitted content such as ratings, reviews, and feedback in a number of different ways, including displaying it on the Website, reformatting it, incorporating it into other works, creating derivative works from it, promoting it, or distributing it. Accordingly, You irrevocably grant My Safety Buddy permission to use Your ratings, reviews, and feedback for any purpose. You also irrevocably grant My Safety Buddy Users the right to access Your ratings, reviews, and feedback in connection with their use of My Safety Buddy.

Personal Data We Collect

My Safety Buddy collects data to operate effectively and provide You the best experiences with Our services.

You have choices about the data We collect. When You are asked to provide personal data, You may decline. If You choose not to provide data that is necessary to provide a service, You may not be able to use some features or services.

You provide some of this data directly, such as when You create a My Safety Buddy account, You choose location updates, an Emergency Notification is activated, You upload Event details, upload photos, audio, and/or video, complete a survey, or contact Us for support. We get some of it by recording how You interact with Our services by, for example, using technologies like cookies, and receiving error reports or usage data from software running on Your device.

We also obtain data from third parties (including other companies). For example, regarding SMS traffic, Monitoring Services, and Mobile Alarm Response Services.

The data We collect depends on the services and features You use, and includes the following:

Content. We collect content of Your emergency alarm files and other communications when necessary to provide You with the services You use. For example, if You activate an emergency alarm We need to collect the content of that Emergency Notification in order to deliver it to Your Emergency Contacts, Account Owner and their Administrators, and to display it to You. We store this data for You until You choose to delete it or until it is deleted automatically by My Safety Buddy.
